CERTIFICATION OF LOT LINES

I, _____, am the owner of the following described real estate located in the City of Camanche, Iowa:

I have applied for and have received a building permit application for the above-described real estate. A copy of said building permit application is attached hereto and by this reference made a part hereof.

I acknowledge the survey of this property is the only way to establish the lines and location of the property and improvements.

I have requested that the City of Camanche perform measurements to ensure that the construction is in conformity with the building permit. I hereby certify that I have determined the correct lot lines from which the City will measure, and I certify that the city of Camanche has not established said lot lines. I understand that if the lot lines, which I have determined, are in fact not correct, then in that event my building construction may or may not be in conformity with the building permit I have received.
